Packages Limited is operating as a Holding Company and derives value for its shareholders from its equity participation in companies, namely, Packages Convertors Limited, Packages Real Estate (Private) Limited, Bulleh Shah Packaging (Private) Limited, DIC Pakistan Limited, Tri-Pack Films Limited, Packages Lanka (Private) Limited, OmyaPack (Private) Limited and Anemone Holdings (Private) Limited. Dividend income constitutes major source of income of the Company and as a result, its income pattern follows the dividend distribution pattern of the subsidiaries and associates.

The operating results of the current period are not comparable with the corresponding period of 2020 since the manufacturing operations of the Company were transferred to wholly owned subsidiary i.e., Packages Convertors Limited on July 01, 2020. As a result, the related revenue streams became part of standalone financial statements of that individual subsidiary, which is now reported under the consolidated financial statements of the Company.

The Company has earned dividend income from its subsidiaries and associates amounting to Rs. 2,466 million during the six months' period ended June 30, 2021 compared to that of Rs. 339 million earned during corresponding period of 2020. This resulted in achieving earnings after tax of Rs. 2,043 million compared to that of Rs. 760 million earned during corresponding period of 2020 and attributed to increase in earnings after tax from PKR 8.51/share to PKR 22.57/share. This is mainly on account of better operating performance of Bulleh Shah Packaging (Private) Limited and Packages Convertors Limited.

Public offer for Tri-Pack Films Limited

During the current period, Mitsubishi Corporation (the "MC") indicated its intention of selling its entire 7,500,000 ordinary shares i.e., 19.33% shareholding of Tri-Pack Films Limited ('TPFL'). As per the Joint Venture agreement between MC and the Company, the Company had the first right of refusal to purchase the entire shareholding of MC. Accordingly, the Company entered into a Share Purchase Agreement on June 08, 2021 with MC for the purchase of entire shareholding of MC in TPFL at a negotiated purchase price of Rs 154.62/share amounting to Rs 1,159.65 million (excluding transaction costs) subject to fulfilment of applicable corporate and regulatory approvals.

In addition, the Company may acquire such number of ordinary shares of TPFL from public as may be offered and acquired in accordance with the provisions Part IX of the Securities Act 2015 and the Listed Companies (Substantial Acquisition of Voting Shares and Takeovers) Regulations, 2017 at such price as may be determined under the applicable regulations (the "Takeover Laws").

'Accordingly, the Company made 'Public Announcement of Intention to Acquire' on February 18, 2021 regarding this proposed acquisition in accordance with the Takeover Laws.

The proposed acquisition has also been approved by the shareholders of the Company in an extraordinary general meeting held on July 09, 2021. The Company is currently in the process of completing its legal formalities under the terms of Share Purchase Agreement and under the applicable takeover laws, accordingly, the proposed acquisition will be executed upon completion of legal formalities.

COMPANY'S STAFF AND CUSTOMERS

The management is thankful to the Company's stakeholders especially its customers for their continuing confidence in its products and services.

The management also wishes to express its gratitude to all the Company's employees who have worked tirelessly. We appreciate their hard work, loyalty and dedication.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements is not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the audit resulting in this independent auditor's report is Muhammad Masood.

These condensed interim unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- i) International Accounting Standard ('IAS') 34, 'Interim Financial Reporting', issued by International Accounting Standards Board ('IASB') as notified under the Companies Act, 2017; and
- ii) Provisions of and directives issued under the Companies Act, 2017

Where provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These condensed interim financial statements are un-audited. These condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended December 31, 2020. Selected explanatory notes are included to explain events and transactions that are significant to the understanding of the changes in the Company's financial position and performance since the last annual financial statements.

3. Significant accounting policies

3.1 The accounting policies and methods of computation adopted in the preparation of this condensed interim unconsolidated financial statements are the same as those applied in the preparation of preceding annual audited financial statements of the Company for the year ended December 31, 2020, except for the adoption of new and amended standards as set out in note 3.2.1.

3.2 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Company's financial statements covering annual periods, beginning on or after the following dates:

3.2.1 Standards, amendments and interpretations to accounting standards that are effective in the current period

Certain standards, amendments and interpretations to approved accounting standards are effective for accounting periods beginning on January 01, 2021, but are considered not to be relevant or to have any significant effect on the Company's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these condensed interim unconsolidated financial statements.

3.2.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Company's accounting periods beginning on or after January 1, 2022, but are considered not to be relevant or to have any significant effect on the Company's operations and are, therefore, not detailed in these condensed interim unconsolidated financial statements.

4. Accounting estimates

The preparation of these condensed interim unconsolidated financial statements require the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim unconsolidated financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Company for the year ended December 31 2020, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 5.

5. Taxation

Income tax expense comprises current and deferred tax. SECP vide its certificate dated November 06, 2019, has registered the Company and its wholly-owned subsidiaries, Bulleh Shah Packaging (Private) Limited ('BSPPL'), Packages Converters Limited ('PCL') and Packages Investments Limited ('PIL') (together 'the Group') for group taxation. Consequent to the filing of declaration for group taxation for the tax year 2022 by the Group, the Group will be taxed as one fiscal unit for the tax year 2022.

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes. Current and deferred taxes based on the consolidated results of the Group are allocated within the Group on the basis of separate return method, modified for determining realizability of tax credits and tax losses which are assessed at Group level. Any adjustments in the current and deferred taxes of the Company on account of group taxation are credited or charged to condensed interim unconsolidated statement of profit or loss in the period in which they arise.

Mark up will be charged at the rate of London Inter-bank Offer Rate ('Libor') plus 2% from the date of disbursement. However, finance cost amounting to Rs 23.166 million (June 30, 2020 : Nil) has been recognised during the period as the six monthly commitment fee on the undisbursed amount of facility availed from IFC as referred above.

7. Contingencies and commitments

7.1 Contingencies

There is no significant change in contingencies from the preceding annual audited financial statements of the Company for the year ended December 31, 2020, except for the following:

- (i) Standby letter of credit issued by Habib Bank Limited Pakistan ('HBL Pakistan') in favour of Habib Bank Limited Bahrain ('HBL Bahrain') on behalf of the Company amounting to USD 2.60 million equivalent to Rs 411.840 million (December 31, 2020: USD 4.0 million equivalent to Rs 639.338 million) to secure long term finance facility provided by HBL Bahrain to Anemone Holdings Limited ('AHL'), wholly-owned subsidiary of the Company. The standby letter of credit is secured against pledge of Nestle Pakistan Limited's shares owned by the Company.
- (ii) The banks have issued the following guarantees on Company's behalf in favour of:
- Sui Northern Gas Pipelines Limited against gas supply for Packages Limited amounting to Rs 7.50 million (December 31, 2020: Rs 7.50 million).
- Shell Pakistan Limited against fuel cards amounting to Rs 2.0 million (December 31, 2020: Rs 2.0 million).
- Director Excise and Taxation against customs clearing amounting to Rs 54.00 million (December 31, 2020: Rs 54.00 million).
- Sindh High Court against stay order proceedings amounting to Rs 12.580 million (December 31, 2020: Rs 12.580 million).
- Pakistan State Oil Limited against fuel cards amounting to Rs 15.00 million (December 31, 2020: Rs 15.00 million).
- (iii) In respect of tax year 2017, an order dated April 29, 2021 had been issued by the Deputy Commissioner Inland Revenue, ('DCIR') and a demand amounting to Rs 1,520 million has been raised under section 137(2) of the Income Tax Ordinance 2001. The tax authorities have raised the demand primarily by disallowing certain expenses and also including certain additions in the taxable income. The action taken by DCIR is, in an adhoc and arbitrary manner, despite all matters concluded in the audit for tax year 2014 on similar issues as well as the data provided during the monitoring proceedings for that year have been finalized without providing an adequate opportunity of being heard to the company and the above mentioned additions / disallowances are made on an 'exparte basis'.

Being aggrieved by the decision of DCIR, the Company has filed an appeal before Commissioner Inland Revenue Appeals(CIRA) dated May 28, 2021 against this impugned order, and at the same time the Company has also filed an application for stay against any coercive action taken by Federal Board of Revenue in Sindh High Court dated June 1, 2021. The stay is valid till the decision of CIR(A).

Based on the advice of the Company's tax advisor, the management believes that there are meritorious grounds to support the Company's stance in respect of this matter. Consequently, no provision for this amount has been made in these condensed interim unconsolidated financial statements.

7.2 Commitments in respect of

(i) Letters of credit other than capital expenditure amounting to Rs 28.071 million (December 31, 2020: Nil).

^{8.2} A portion of the land on which the Company's buildings are situated, measuring 231 kanals and 19 marlas, was leased out to the Company by Government of Punjab ('GoPb') from December 1955 till November 2015 after which the lease has not been renewed. During the year 2015, the Company approached the Board of Revenue ('BoR'), GoPb to renew the lease; however, no adequate response was received. On January 5, 2019, the Supreme Court of Pakistan ('Court'), summoned BoR, to which the BoR stated that the new policy of the GoPb is not to lease state land but to sell it through open auction. Consequently, the Company was directed to deposit Rs 500 million with the BoR as security to the payment of outstanding amount of rent to be determined, with such amount being adjustable against final amount of rent. The Company deposited such amount in compliance with the direction on January 10, 2019. The Court has further directed Additional Advocate General, Punjab on January 16, 2019 that subject to the Court's approval, two surveyors be appointed for determination of rent based on industrial usage of the land for the period from December 2015 till date. The surveyors were appointed, who have submitted their independent valuation reports to BoR and the Court. The matter is pending for further action as of the date of the authorization for issue of these condensed interim unconsolidated financial statements. Moreover, the Court has further decided that the land shall be sold through an open auction with the Company getting the first right of refusal.

The management has, on the basis of assessment of fair value of the said portion of land by independent valuers, as appointed by the Court, and its understanding of the prevalent market terms relating to rent of such properties in the vicinity of the said portion of land, recognised an expense of Rs 50.697 million (June 30, 2020: Rs 87.00 million) in respect of rent for the period from January 2021 to June 2021. The management is confident that the final amount of rent will be in congruence with the provision made in these condensed interim unconsolidated financial statements, inter alia based on the fair value determined by the independent valuers and the relevant facts and circumstances.

13. Transactions with preference shareholders

This represents the additional entitlement of the preference share holders as mentioned in note 6. In addition to the preferred right of return at the rate of 10 percent per annum, either in cash or ordinary shares on a non-cumulative basis till the date of settlement of preference shares / convertible stock, the preference shareholders also have the right to share the excess amount with the ordinary shareholders on an as-converted basis in case the amount of dividend per share paid to an ordinary shareholder exceeds that paid to a preference shareholder. Since ordinary dividend of Rs 22.50 per share was approved for the year ended December 31, 2020, which exceeded the preferred return for that year, the additional preference dividend to be paid to the preference shareholders has been distributed to the preference shareholders as participating dividend and charged directly to the equity.

17. Financial risk management

17.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed interim unconsolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2020.

There have been no significant changes in the risk management policies since the year ended December 31, 2020.

17.2 Fair value estimation

a) Fair value hierarchy

The different levels for fair value estimation used by the Company have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the three levels prescribed above. The following table presents the Company's significant financial assets measured and recognised at fair value at June 30, 2021 and December 31, 2020 on a recurring basis:

2. Basis of preparation

2.1 Statement of compliance

These condensed interim unaudited consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- i) International Accounting Standard ('IAS') 34, 'Interim Financial Reporting', issued by International Accounting Standards Board ('IASB') as notified under the Companies Act 2017; and
- i) Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These condensed interim consolidated financial statements are un-audited. These condensed interim consolidated financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended December 31, 2020. Selected explanatory notes are included to explain events and transactions that are significant to the understanding of the changes in the Company's financial position and performance since the last annual financial statements.

3. Significant accounting policies

The accounting policies adopted for the preparation of these condensed interim unaudited consolidated financial statements are the same as those applied in the preparation of preceding annual published financial statements of the Group for the year ended December 31, 2020.

3.1 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Group's condensed interim unaudited consolidated financial statements covering annual periods, beginning on or after the following dates:

3.1.1 Standards, amendments and interpretations to accounting standards that are effective in the current period

Certain standards, amendments and interpretations to approved accounting standards are effective for accounting periods beginning on January 1, 2021, but are considered not to be relevant or to have any significant effect on the Group's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these condensed interim financial statements.

3.1.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Group's accounting periods beginning on or after January 1, 2022 but are considered not to be relevant or to have any significant effect on the Group's operations and are, therefore, not detailed in these condensed interim unaudited consolidated financial statements.

4. Accounting estimates

The preparation of these condensed interim unaudited consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim unaudited consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended December 31, 2020, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 5.

5. Taxation

Income tax expense comprises current and deferred tax. SECP vide its certificate dated November 06, 2019, has registered the Parent Company and its wholly-owned subsidiaries, BSPPL, PCL and PIL (together 'the Tax Group') for group taxation. Consequent to the filing of declaration for group taxation for the tax year 2022 by the Tax Group, the Tax Group will be taxed as one fiscal unit for the tax year 2022.

Income tax expense is recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. Current and deferred taxes based on the consolidated results of the Tax Group are allocated within the Tax Group on the basis of separate return method, modified for determining realizability of tax credits and tax losses which are assessed at Tax Group level. Any adjustments in the current and deferred taxes of the Tax Group on account of group taxation are credited or charged to condensed interim unaudited consolidated statement of profit or loss in the period in which they arise.

9.1 A portion of the land on which the Parent Company's buildings are situated, measuring 231 kanals and 19 marlas, was leased out to the Parent Company by GoPb from December 1955 till November 2015 after which the lease has not been renewed. During the year 2015, the Parent Company approached the Board of Revenue ("BoR"), GoPb to renew the lease; however, no adequate response was received. On January 5, 2019, the Supreme Court of Pakistan ('Court'), summoned BoR, to which the BoR stated that the new policy of the GoPb is not to lease state land but to sell it through open auction. Consequently, the Parent Company was directed to deposit Rs 500 million with the BoR as security to the payment of outstanding amount of rent to be determined, with such amount being adjustable against final amount of rent. The Parent Company deposited such amount in compliance with the direction on January 10, 2019. The Court has further directed Additional Advocate General, Punjab on January 16, 2019 that subject to the Court's approval, two surveyors be appointed for determination of rent based on industrial usage of the land for the period from December 2015 till date. The surveyors were appointed, who have submitted their independent valuation reports to BoR and the Court. The matter is pending for further action as of the date of the authorization for issue of consolidated financial statements. Moreover, the Court has further decided that the land shall be sold through an open auction with the Parent Company getting the first right of refusal.

The management of the Parent Company has, on the basis of assessment of fair value of the said portion of land by independent valuers, as appointed by the Court, and its understanding of the prevalent market terms relating to rent of such properties in the vicinity of the said portion of land, recognised an expense of Rs 50.697 million (June 30, 2020: Rs 87.00 million) in respect of rent for the period from January 2021 to June 2021. The management is confident that the final amount of rent will be in congruence with the provision made in these condensed interim unaudited consolidated financial statements, inter alia based on the fair value determined by the independent valuers and the relevant facts and circumstances.

16. Transactions with preference shareholders

This represents the additional entitlement of the preference share holders. In addition to the preferred right of return at the rate of 10 percent per annum, either in cash or ordinary shares on a non-cumulative basis till the date of settlement of preference shares / convertible stock, the preference shareholders also have the right to share the excess amount with the ordinary shareholders on an as-converted basis in case the amount of dividend per share paid to an ordinary shareholder exceeds that paid to a preference shareholder. Since ordinary dividend of Rs 22.50 per share was approved for the year ended December 31, 2020, which exceeded the preferred return for that year, the additional preference dividend to be paid to the preference shareholders has been distributed to the preference shareholders as participating dividend and charged directly to the equity.

21. Financial risk management

21.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

(11,492,636)

(15,148,758)

The condensed interim unaudited consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at December 31, 2020.

There have been no changes in the risk management department or in any risk management policies since the year ended December 31, 2020.

21.2 Fair value estimation

a) Fair value hierarchy

The different levels for fair value estimation used by the Group have been explained as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed above. The following table presents the Group's significant financial assets measured and recognised at fair value at June 30, 2021 and December 31, 2020 on a recurring basis:

| As at June 30, 2021 | Un-audited | | | | | |

During the period, there were no significant changes in the business or economic circumstances that affect the fair value of the Group's financial assets and financial liabilities. Furthermore, there were no reclassifications of financial assets.
